FANCY !?

Hello Harold + Lil —

Sorry I haven't been pestering you two for a while. Miss the occasional contact with good calibers.

Anyhow, here's the NY Times opus.

If I were an expert in drama, I would say that "THEY" appear to be ready to deliver up a long-ago plot vs MLKING to satisfy Vox Populi. Then the House Committee could collapse like a house of cards instead of the Warren Report.

Regards
Bob Regan

P.S. don't know why this hand writing (?) slants up. THE desk is level.
